

CV of AMIT RANJAN

PERSONAL DETAILS:

Name : Amit Ranjan

Profession : HTMS/ Tolling Expert

Date of Birth : 05th Feb. 1981

Marital Status : Married

Contact Details : 7992401630

Email : amitpossible@gmail.com

Current Address : 007, Ground Floor, Tower-Pacific, Urbtech Xavier's, Sector-168, Noida, U.P-201305

Permanent Address : House no. 120, Ward no. 09, near Brahamsthan Bahilwara urf Garha, Distt. – Sitamarhi, Bihar- 843323

Nationality : Indian

KEY QUALIFICATIONS:

I am graduate in Electronics & Communication having more than 21 years in the field of software, hardware related to ATMS / Tolling system for various infrastructures including highways. My experience includes Project Management, Project Engineering, Designing & Planning, Site Management and Solution Architect in Electronic Toll Collection/Advance Traffic Management Systems (ITS solutions industry). Having track record of completing Toll / ATMS systems & Other IT projects in stipulated time, I have excellent interpersonal, communication and analytical skills with demonstrated abilities in Project Management, Toll & ATMS systems Design, Installation, Maintenance, Databases and application support. Areas of expertise are:

- Functional and technical expertise in Toll and Highway Traffic Management systems.
- Application Software, database installations, configurations and support.
- Cross-Functional Project Team Leadership.
- Multi-Site, Multi-Project Operations.
- Problem Solving & Decision-Making capabilities.
- Vendor Management & Contract administration.
- SAT with clients and consultants.
- Site Management and Training to new employees.
- Customer Relationship Management.

EDUCATIONAL QUALIFICATION:

- B.E Electronics & Communication Engineering from Bangalore University in the year 2004

EMPLOYMENT RECORD:

From February 2025 : Till Date
Employer : M/s Proto Hellenic Pvt. Ltd.
Position Held : DGM Projects

From August 2024 : January 2025
Employer : M/s Ceoma Consulting Pvt. Ltd.
Position Held : HTMS/Tolling Expert

- Consultancy Services for Authority Engineer for construction of Dwarka Expressway from Road Under Bridge (RuB) near Sector 21 Dwarka to Delhi Haryana Boarder (Km 5.300 to Km 9.500)- Package-2 in state of Delhi” Client: NHAI; Project length: 4.600 Km Project Cost: 1470 Cr.

Activity Performed: As a HTMS/Toll Expert responsible for overall design & development of the E-Tolling solution using Passive RFID technology. Overall responsible for the complete system architecture, hardware and software requirements and involved in procurements, setting up test facility and guiding the development team for developing a robust, cost effective and sustainable Toll solution. Involved in Design of the toll, traffic and telecom systems. Manufacture acceptance test sheets: Toll (platform and software) - telecommunication: ERTS. Involve in finalizing strategy for collection process, fixing of number of toll lane, preparing tolling strategy, optimizing tolling system to cater queuing problem. Suggesting ways & means for smooth operation of tolling system, integrating future traffic growth with toll booth facility. Review of contract clauses. Review of the design. Also involve in Carrying out 7 days 'in camera' traffic survey at one location at proposed toll, O/D survey, Number Plate survey, willingness to pay – survey, assessment of future traffic, Toll revenue estimation, Design of Toll plazas, toll collection system, Preparation of business plan.

From October 2023 : **July 2024**
Employer : **M/s L.N. Malviya Infra Projects Pvt. Ltd.**
Position Held : **ATMS/TMS Key Expert**

- **Consultancy Services for Authority's Engineer for Supervision of Construction of initial improvement works & supervision of ATMS/TMS installation under Tolling, Operation and Maintenance & Transfer of Palanpur-Abu Road Swaroopganj section (from Km. 601+000 to Km. 677+000) of NH-27 in the State of Rajasthan & Gujarat. Variation for Manpower Supply of ATMS/TMS Key Expert for Location Kagal- Belgaum Maharashtra Project; [Project length: 77.70 Km](#)**

Activity Performed: As a HTMS/Toll Expert responsible for overall design & development of the E-Tolling solution using Passive RFID technology. Overall responsible for the complete system architecture, hardware and software requirements and involved in procurements, setting up test facility and guiding the development team for developing a robust, cost effective and sustainable Toll solution. He was involved in Design of the toll, traffic and telecom systems. Manufacture acceptance test sheets: Toll (platform and software) - telecommunication: ERTS. Involve in finalizing strategy for collection process, fixing of number of toll lane, preparing tolling strategy, optimizing tolling system to cater queuing problem. Suggesting ways & means for smooth operation of tolling system, integrating future traffic growth with toll booth facility. Review of contract clauses. Review of the design. Also involve in Carrying out 7 days 'in camera' traffic survey at one location at proposed toll, O/D survey, Number Plate survey, willingness to pay – survey, assessment of future traffic, Toll revenue estimation, Design of Toll plazas, toll collection system, Preparation of business plan.

From January 2023 : **September 2023**
Employer : **M/s ARS Technocrats Pvt. Ltd.**
Position Held : **AGM Projects**

- **Construction of six lane access controlled green field Highway from Km. 99.000 to Km. 130.073 of Rajasthan/Gujarat Boarder to Santalpur section of NH-754K as a Part of Amritsar-Jamnagar Economic Corridor in the State of Gujarat on EPC mode under Bharatmala Pariyojna AJ/RGBS/Pkg-4 length 31.073 Km. [Project length: 31 Km](#)**

Activity Performed: Responsible for overall design & development of the Highway lighting and Preparation of business plan.

From May 2021 : **October 2022**
Employer : **M/s SA Infrastructure Consultants Pvt. Ltd.**
Position Held : **HTMS/Tolling Expert**

- **Consultancy Services for Authority Engineer for six-laning of existing 4-lane road from Gundugolanu (design Km 1023.280) to Chinna Avutupalli (design Km 1076.480) (pkg-I: Gundugolanu-Kalaparru section and pkg-II: Kalaparru-Chinna Avutupalli section including Hanuman jn bypass) NH-5 (new NH-16), (total design length= 54.800 km) in the state of Andhra Pradesh under NHDP phase-V under Bharatmala Pariyojna on EPC mode" Client: NHAI; Project length: 54.800 Km Project Cost: 1095.35 Cr.**

- **Consultancy Services for Independent Engineer for Eight-laning of section of NH-1(New NH-44) from Mukarba Chowk at Km 15.500 to Panipat at Km 86.000 on BOT (Toll) basis in the state of Haryana.**
- **Consultancy Services for Authority Engineer for Supervision Supervision of Six Laning of Karaipettai to Walajapet from Km 71.015 to 107.091 (36.076 km) of NH-4 (new NH-48) in the state of Tamil Nadu under Residual NHDP (Phase-V) under Bharatmala Pariyojna on EPC Mode; Client: NHAI; Project Length: 36.076 Km**
- **Consultancy Services for Authority Engineer for Supervision of Four Lane Divided Highway from Melur (design Km 0.000/Existing Km 99.920 of NH-38) to Karaikudi (design Km 45.860/Existing Km 12.900 of NH-383 Ext.) design length = 45.860 Km) in the state of Tamil Nadu under Bharatmala Pariyojna on EPC Mode; Client: NHAI; Project Length: 45.860 Km**
- **Consultancy Services for Authority Engineer for Supervision Supervision of Six Laning of Sriperumbudur to Karaipettai from Km 37.000 to 71.015 (34.015 km) of NH-4 (new NH-48) in the state of Tamil Nadu under Residual NHDP (Phase-V) under Bharatmala Pariyojna on EPC Mode; Client: NHAI; Project Length: 34.015 Km**
- **Consultancy Services for Independent Engineer for Supervision of Four Laning of Sangli-Solapur (pkg-1- Sangli-Borgaon) Highway section of NH-166 from existing Km 182.195 (design Km 182.556) to existing Km 219.956 (design Km 224.000) (length =41.444 Km) in the state of Maharastra on HAM Mode; Client: NHAI; Project Length: 41.444 Km**

Activity Performed: As a HTMS/Toll Expert responsible for overall design & development of the E-Tolling solution using Passive RFID technology. From Aug. 2019 : To April 2021
Employer : M/s Qualix Information System LLP
Position Held : Assistant Manager

ATMS (Advanced Traffic Management System) Projects:

- **6-laning of Handia -Varanasi section of NH-2 from km. 713.146 to km. 785.544 in the State of Uttar Pradesh under NHDP Phase-V on Hybrid Annuity Mode” Client NHAI; PPP Project; Project Length:61.62km.; Project Cost: 2447Cr.;**
- **Design and Construction of Delhi Meerut Expressway from Dasna to Meerut from km. 27.740 of NH- 24 to km 51.975 of NH-58 (Design Chainage 28.000 to 59.777 in the state of Uttar Pradesh on EPC mode.” Client: NHAI; Project Length 31.78 Km.; Project Cost: 1087Cr.;**
- **Four laning with Paved Shoulder of Porbandar – Dwarka section of NH-8E (Ext.) from km. 356.766 (Design Chainage km 379.100) to km. 473.000 (Design Chainage km 496.848) in the State of Gujarat through Public Private Partnership (PPP) on Hybrid (Annuity) mode.” Client: NHAI; Project Length:117.75km.; Project Cost 1600Cr.;**
- **Four laning of Gundugolanu-Devarapalli- Kovvuru section of NH-16 from Km. 15.320 (Existing Km 15.700) to Km. 85.204 (existing Km 81.400) (Design Length=69.884 Km) in the State of**

CV of AMIT RANJAN

Andhra Pradesh under Bharatmala Pariyojana on Hybrid Annuity mode.” Client: NHAI; Project length:69.884; Project Cost:1827Cr.;

- **Four lane with Paved Shoulder configuration of Bilaspur-Pathrapali section from km.0.000 km. to km.53.300 (design length. 53.300 km) of NH-111 (new NH-130) in Chhattisgarh, under Bharatmala Pariyojna, on Hybrid Annuity Mode (HAM).” Client: NHAI Project length :..... Project Cost: 2100 Cr.**
- **Four laning of Barhi Hazaribagh section from km. 0.00 to km 40.500 of NH 33 in the state of Jharkhand on design, built, finance, operate and transfer (DBFOT) toll basis under NHDP Phase III project.” Client: NHAI; Project Length: 40.500km.**

TMS (Toll Management System) Projects:

- **6-laning of Handia -Varanasi section of NH-2 from km. 713.146 to km. 785.544 in the State of Uttar Pradesh under NHDP Phase-V on Hybrid Annuity Mode” Client NHAI; PPP Project; Project Length:61.62km.; Project Cost: 2447Cr.**
- **Four laning with paved shoulder of Porbandar – Dwarka section of NH-8E (Ext.) from km. 356.766 (Design Chainage km 379.100) to km. 473.000 (Design Chainage km 496.848) in the State of Gujarat through Public Private Partnership (PPP) on Hybrid (Annuity) mode.” Client: NHAI; Project Length:117.75km.; Project Cost 1600Cr.;**
- **Four laning of Barhi Hazaribagh section from km 0.00 to km 40.500 of NH 33 in the state of Jharkhand on design, built, finance, operate and transfer (DBFOT) toll basis under NHDP Phase III project.” Client: MORTH; PPP Project; Project Length:40.500km.; Project Cost:562.34**
- **Four laning of Ranchi – Rargaon - Jamshedpur from km. 140.002 to km 217.300 having length 163.5km in the state of Jharkhand and Uttar Pradesh under NHDP-III.” Client: NHAI Project Length: 77.298 Km.; Project Cost: 1479Cr.**

Activity Performed: As **Assistant Manager** was responsible for review of toll operation, development of MIS, Preparation of Inspection Report, review standards of toll collection and ATMS, taking approval of ‘lane closure plan’, checking of specifications of the Toll Plaza and Toll equipment, carrying out Traffic Sampling & traffic management. Well conversant with the International latest practices in the field of ATMS and tolling. for execution of Trenching, HDPE Duct laying for OFC, Backfilling, OFC Blowing, OFC Splicing for ATMS Equipment connectivity, Foundation related work like Excavation work, Reinforcement work, Concrete work for all ATMS Equipment, implement all ATMS Devices i.e., VIDS, VAS, PTZ, MET, ECB, MRCS, TIRTL/Piezo based ATCC. Responsible for ATMS Control room setup like server, UPS, Video wall and GUI interface workstation, maintaining accurate reports of DPR (Daily Progress Report) during Implementation of all ATMS device for facilitating strategic Decision, maintaining accurate reports of Project Implementation Status Report during Implementation of all ATMS & TMS device for facilitating strategic Decision. Responsible for Implement of RFID Reader, Automatic Vehicle Classification System (AVC), Vehicle detection Loops, Loop Detectors, Axle Sensor, Directional sensor, Height sensor. Implement of TIRTL(The Infrared Traffic Logger) and basic knowledge in VIDS(Video Incident Detection System), Implement Toll booth equipment, Toll lane controller, Toll collector keyboard, Display Contactless, Smart card reader, Receipt Printer, Panic alarm switch, Intercom unit, Violation alarm, Barcode Reader. Implement of UFD (User fare display), Traffic light, Automatic exit barrier, LPIC Camera, ICS Camera, Booth camera, PTZ camera. Implementation of Static WIM, MSWIM load cell based with calibration of WIM. Installation of operating system like Windows server 2012 standard edition, Windows 10 express edition and all software tools like Visual studio 2008, VNC, SQL server express and standard version, Sql server Management system, Database Restoration, Link server creation, Nettime for implementation of Toll Management system. Maintaining accurate reports of DPR (Daily Progress Report) during Implementation for facilitating strategic Decision.

From Jun. 2018	:	To Jul. 2019
Employer	:	M/s Elsamex Maintenance Services Limited
Position Held	:	HTMS Incharge

CV of AMIT RANJAN

ATMS (Advanced Traffic Management System) Projects

- Four laning of Hazaribagh-Ranchi stretch of NH33 from Km. 40.5 to Km.114 including Kujju bypass in Jharkhand on BOT (Annuity) Basis.” Client: NHAI; Project Length:73.7 Project Cost: 625.07 Cr.;

TMS (Toll Management System) Projects:

- Four laning of Hazaribagh-Ranchi stretch of NH33 from Km. 40.5 to Km.114 including Kujju bypass in Jharkhand on BOT (Annuity) Basis.” Client: NHAI; Project Length:73.7 Project Cost: 625.07 Cr.”

Activity Performed: As **System Engineer** was responsible for review of toll operation, development of MIS, Preparation of Inspection Report, review standards of toll collection and HTMS, taking approval of ‘lane closure plan’, checking of specifications of the Toll Plaza and Toll equipment, carrying out Traffic Sampling & traffic management. From Aug. 2004 : To May 2018
Employer : M/s Triflex Solutions
Position Held : Sr. Manager (Toll)

ATMS (Advanced Traffic Management System) projects:

- Construction of 4-lane for Halol-Godhra-Shamlaji section of SH-5 having length 173km. in the State of Gujarat on BOT (toll) basis.” Client: GSRDCL; Project length: 173 Km Project Cost: 1300 Cr.
- Construction of 4-lane Ahmedabad-Maliya Tollway section SH-7 having length180km in the State of Gujarat on BOT (toll) Basis.” Client: GSRDCL; Project length: 180km.; Project Cost: 1284 Cr.;
- Four laning of the Rajkot-Vadinar section having length 131.75 km of SH-25 in the state of Gujarat, on BOT (Toll) basis.” Client: GSRDCL; Project length:131.75km.; Project Cost:1000Cr.
- Six lane Samakhiali and Gandhidham having length 56.17 included the design, construction, financing and operations (DBFOT basis).”Client : NHAI; Project Length 56.17Km.; Project Cost:1300Cr.;
- Six laning of Krishnagiri-Walahipet section of NH 46 from km. 0.00 to km. 148.30 in the State of Tamil Nadu under NHDP V on BOT basis.” Client: NHAI; Project Length:148.30; Project Cost:1489.55Cr.;
- Four laning of Beawar Pali Pindwara Section of NH 14 from km. 0.00 to km 244.12 in Rajasthan on BOT(Toll) basis.” Client: NHAI; Project Length: 244.12km.; Project Cost:2388Cr.;
- Six laning of Barwa Adda-Panagarh section from 398.0 km to 521.12 km including Panagarh bypass of NH-2 in the state of Jharkhand and West Bengal.” Client: NHAI; Project Length:123.12km.; Project Cost:2434Cr.

TMS (Toll Management System) Projects:

- Project Name: Barwa – Adda Expressway (NH- 2) Project length: 122.9 KM Project Cost: 4.23 Cr. Client: IL&FS Transportation Network Ltd.
- Four Laning of Highway from Baleshwar to Kharagpur section of NH-60 from km. 0.000 to km. 119.300 in the State of Orissa and West Bengal .” Client NHAI; Project Length:119.300km.; Project Cost: INR471Cr.;

Activity Performed: As **Senior Manager** responsible for design & development Part of core team to successfully test and implement new Technologies like ETC, Integrated Handheld Terminal for Toll Collection, LPIC Camera, IR based Classification System to improve system accuracy, on various projects using Passive RFID technology. Software installation & support including Lane controllers, Auto Vehicle detection / classification systems, MIS application, Informix and Oracle Database

administration, Unix / Windows server installations on toll sites. Toll Collection System, Vehicle tracking systems, Advanced Parking Management and Access Control systems Project Management, Project execution and commissioning, Server, database and application installation, Hardware installation & configuration. Customer Relationship and Vendor Management, Training to subordinates for effective maintenance. Team leading for System support including Toll and HTMS hardware across client sites installing & commissioning complete servers and application software across all sites. Vendor management, price negotiations and ensuring timely supply of local equipment. Site Integration testing and UAT with Client for Hardware and software. Providing software & system support under DLP period.
