

PRADEEP KUMAR

Address: Hazaribagh, Jharkhand, India · Phone: +918279204200

Email: eerpradeepkumar@gmail.com

To take up a challenging career in the industry, where I can contribute to the best of my skills and efforts for the growth of the company and thus expand my horizons, solve practical problems; gain insight into the working of large organizations. Good interpersonal and communication skills, Self-motivated, ability to take up responsibility and work in a team & Eagerness to learn new technologies.

HIGHLIGHTS OF QUALIFICATIONS:

- Extensive knowledge in the operations and maintenance of Data Center
- Installation, testing and commissioning of multiple data centers
- Theoretical and Technical knowledge in Data Center power sources, cooling, cabling, as well as other Infrastructure issues
- Proficiency in data center servers, IBMS, cabling, racks, Network Support and in-rack-PDUs
- Gap Analysis of mission critical facilities
- Facilities Operation and Management
- Analyzing the faults in the system.
- Routine and Preventive Maintenance Planning.
- Good communication skills
- Documentations of entire operation and maintenance activities carried out for future references.
- Experience in rack mounting for a new server on HPE, Dell EMC server, Tape Library & Storage.

EXPERIENCE

SENIOR ENGINEER - L2 (ASSAM STATE DATA CENTER), SIFY DIGITAL SERVICES LIMITED, INDIA

10/2025 – PRESENT

- Responsible for data center operations including projects implementation & project Management.
- Coordination with vendors to support the installation of Network Hardware devices like a Router, switches, Fortinet firewall, Redware Load balancer, Patch panel, fiber duct containment system & etc.
- Coordination with vendors to support the installation of multimode Optical fiber cable laying, proper dressing & labeling.
- Experience in Rack mounting for new server on HPE, Dell EMC server & Tape Library & storages etc.
- Responsible for maintaining the equipment racks, cables, power, In-row cooling other related services.
- Schedule and supervise the performance of both routine maintenance and emergency service on critical systems, including: Genset, UPS systems, fire detection/suppression other related services
- Managing operations and maintenance of all data center infrastructure equipment (critical and non- critical).
- Maintaining and operations of iBMS Systems – Desigo CC Application, Access control system (Sipass), CCTV, Gas base fire suppression system, P.A system, Water Leakage System, Rodent Repellent system, VESDA system, DCIM tools, Utility Panel etc.
- Maintain infrastructure performance, scalability and security for smooth operations.
- Preparation of technical documents monthly, Quarterly reports and submitted them to customers as per SLA.
- Attending weekly & monthly meetings with the client and discussing the project-related plans.
- Streamlined process for delivering technical RFP/RFI content.
- Worked with vendors to produce anticipated outcomes. Ensured product demonstrations

fully functional and ready to address customer queries.

- Continuously monitor network performance using network management tools, identify issues, and take corrective action
- Provide first-level troubleshooting for network issues such as connectivity problems, device malfunctions, and basic configuration issues
- Maintained store inventory for IT & Non-IT related Materials.
- Prepared Non-IT related documents for audit ISO 27001 & 20000
- On-call 24x7 for incident management and data center emergency response

BMS ENGINEER – L1 (ASSAM STATE DATA CENTER), SIFY DIGITAL SERVICES LIMITED, (Payroll – Talent Maximus Payroll Services Pvt. Ltd) INDIA from **10/2023 to 10/2025,**

(Payroll – TMI Staffing Services Pvt. Ltd) INDIA from **05/2023 to 09/2023,**

- Continuously monitor data center critical systems through the BMS platform.
- Track real-time alarms, trends, and equipment running status.
- Respond to alerts immediately and take corrective action.
- Ensure uptime and availability of all critical infrastructure
- Monitor PAC/CRAC/VRF units, pumps, and related cooling equipment.
- Monitor UPS (N+1), batteries, power panels, transformers, and DG sets via BMS
- Oversee door controllers, biometrics, CCTV integration and real-time logs
- Assist OEM vendors in testing, shutdown activities, and system improvements
- Maintain daily, weekly, and monthly BMS operation reports
- Ensure all operations follow data center SOPs, SLA, safety policies, and ISO standards.
- Support audits (ISO 27001, ISO 20001, DCIM compliance, etc.).

Project:

- Assam State Data Center, Guwahati

BMS ENGINEER (NATIONAL INFORMATICS CLOUD DATA CENTER), HEWLETT PACKARD ENTERPRISES, (Payroll – Climate Consulting Services India Pvt Ltd) INDIA
11/2021– 04/2023

- Responsible for data center project implementation, including project scheduling, project management
- Preparation of Technical Document/BOQ (Bill of Quantity)
- Planning and management of floor space, Equipment racks, Cables, Power, cooling and other related services
- Co-ordination with other services for the electrical and mechanical inputs/outputs like, DG, SMPS, UPS DB, Industrial Socket & Isolator
- Maintaining H.T and L.T. Utility panel room, server room, lightning and so on.
- Communicated and liaised professionally with clients, contractors and staff.
- Attending weekly meeting with customer for delivery Project Planning.
- Maintenance and operations of iBMS System like –Desigo CC Application, Access control system (Honeywell), CCTV, Gas base fire suppression system, P.A system etc.
- Inspecting & ensuring that the workers followed safety guidelines on site.

Project:

- National Informatics Centre (Cloud Data Center) Chandigarh U.T

DESKTOP SUPPORT ENGINEER & GRAPHICS DESIGNER, HEEMANKSHI BAKERS PVT LTD, HYDERABAD INDIA
07/2019 – 10/2021

- Graphics designing of packaging as per requirement of client.
- Coordinate with the client and take order for inner and outer packet designing.
- Designing of KLD as per requirement of General Manager.

- Installing and configuring Install hardware and software, help with system upgrades, and configure hardware and software.
- Resolving issues with internet connectivity, printers, scanners, phones, and other equipment
- Providing new system orientation and training to end users

EDUCATION

BACHELORS OF TECHNOLOGY IN ELECTRICAL ENGINEERING, RAJASTHAN TECHNICAL UNIVERSITY (KOTA)

Graduated with a **First-Class Distinctions – 8.54 CGPA**

12 /2023

DIPLOMA IN ELECTRICAL ENGINEERING, BOARD OF TECHNICAL EDUCATION RAJASTHAN (JODHPUR)

First-Class – 70.49 %

09 /2019

INTERMEDIATE OF SCIENCE, JHARKHAND ACADEMIC COUNCIL (RANCHI)

First-Class – 60.00 %

09 /2016

CERTIFICATIONS

CISCO CERTIFIED CCNA (ID - CSCO14869871)

ADVANCE DIPLOMA IN COMPUTER APPLICATION

PANNEL ASSEMBLY & WIRING DIVISION, INOVADD AUTOMATION- IA/2021-22/83

BASIC AUTOMATION TRAINING (PLC, SCADA SYSTEM), SS COLLEGE OF ENGINEERING, RAJASTHAN

10 DAYS WORKSHOP ON (MICROSOFT VISIO), SS COLLEGE OF ENGINEERING, RAJASTHAN

2 DAYS NATIONAL SEMINAR ON RECENT ADVANCE IN ELECTRICAL ENGINEERING, SS COLLEGE OF ENGINEERING, RAJASTHAN

SKILLS

- | | |
|---|----------------------------|
| • Technical: Microsoft Visio, PLC Programming, SCADA | • Basics & Problem Solving |
| • Designing and Drafting: Corel Draw, Adobe Photoshop, | • Creativity & Designing |
| • Data center Solution: Tier Standard's | • Project Management |
| • Software: Microsoft Office | • Adaptability |

PERSONNEL DETAILS:

- ❖ **Languages Known:** English, Hindi
- ❖ **Outdoor:** Travelling, Cricket and Football
- ❖ **Indoor:** Reading and meditating
- ❖ **Date of Birth:** 05-SEP-1999
- ❖ **Passport Details:** INDIAN – U8539172

Place: Guwahati, Assam
