

UTKARSH RAJKAMAL JAMBHULKAR

Senior Design Engineer | Pre-Sales & Post-Sales | ELV, Security & Fire Systems

utkarshjambhulkar8999@gmail.com | +91-8999679717 | Pune, Maharashtra, India | [linkedin.com/in/utkarshjambhulkar](https://www.linkedin.com/in/utkarshjambhulkar)

PROFESSIONAL SUMMARY

Senior Design Engineer with **2.5 years** at Johnson Controls India, experienced across the **complete project lifecycle** — from BOM preparation, cost estimation and technical proposals through to **post-sales engineering drawings and design deliverables**. Currently supporting **Google and Microsoft data centre** projects across **Continental Europe** — delivering complete security and **VESDA BOQ/BOM** while actively expanding into **Fire Alarm system design**. Known for **CAD/Bluebeam process automation** — reducing estimation workflows from hours to seconds. Looking to grow as an ELV and Fire Alarm specialist contributing to large-scale infrastructure projects globally.

PROFESSIONAL EXPERIENCE

Johnson Controls Inc. | *Pune, Maharashtra* **Oct 2023 – Present**

Senior Design Engineer — ELV & Security | Pre-Sales & Estimation **Oct 2025 – Present**

- Analyse **RFP specifications and pre-designed floor plans** for **Google and Microsoft data centre** projects across **Continental Europe** to deliver accurate security system estimations.
- Perform quantity takeoffs using **Bluebeam and AutoCAD**; prepare complete **BOMs** including panel, battery, cable calculations and **VESDA pipe length quantification**.
- Develop **technical proposals and clarification documents** for sales teams and customers with accurate final pricing.

Senior Design Engineer — Pre-Sales & Post-Sales, ELV & Security **Oct 2024 – Oct 2025**

- Led pre-sales solution design and cost estimation for **CCTV, ACS, Intrusion and Intercom** systems for **North America** clients across **commercial, industrial, residential, healthcare and data centre** verticals.
- Developed **BOMs, technical scopes, AutoCAD drawings, RFIs/RFQs, tender proposals, vendor quotations and clarification documents**.
- Produced **post-sales engineering deliverables** including panel-to-panel connection drawings, device connection diagrams, door and camera typical drawings, and riser diagrams for **ACS, VSS and IDS** systems.

Graduate Engineer Trainee — ELV & Security Systems **Oct 2023 – Oct 2024**

- Prepared **AutoCAD 2D** drawings, **BOQs, RFIs** and fire system engineering submittals across multiple concurrent projects.

TECHNICAL SKILLS

ELV & Fire: CCTV, Access Control (ACS), Intrusion Detection (IDS), Intercom (ICS), Fire Alarm Systems (FAS), VESDA, Public Address & Voice Alarm (PA/VA)

Tools & Software: AutoCAD 2D, Bluebeam, Nitro PDF, IP CCTV Design Tool, Salesforce (SFDC), Microsoft Office Suite, BOQ/BOM Preparation, Quantity Takeoff, Panel & Battery Calculation, Cable Calculation, Cost Estimation, RFI/RFQ Management, Tender & Proposal Drafting

PRODUCT KNOWLEDGE

Access Control: Kantech, CCURE 9000, HID, Brivo, DMP, Alarm.com, Mercury, Honeywell

Video Surveillance: ExacqVision, Illustra, Eagle Eye, Hanwha, Axis, OpenEye, Bosch, Etherwan, Allied Telesis, Digital Watchdog

Intrusion: Honeywell Vista, Qolsys, DMP, Bosch, DSC, Alarm.com | **Intercom:** Aiphone

Fire Alarm: Zettler

CERTIFICATIONS

Johnson Controls India — ExacqVision (Feb 2025), Victor & VideoEdge Installer (Jul 2025)

Lynx Systems — Advanced Integrator Training Course (May 2025)

NOTABLE ACHIEVEMENTS

All awards: Johnson Controls GCoE India, Sales & Engineering Support

- ★ **Best Kaizen Award** — Q3 FY25
- ★ **Stand Out Award** — Q4 FY24 & Annual FY24
- ★ **Customer Satisfaction Award** — Q2 FY25

☆ **Semi-Finalist** — Techathon & Tech Challenge, Johnson Controls India FY24
 ☆ **10+ Kaizen submissions** — consistent process innovation from Day 1
 ☆ **Guest Lecturer** — Dr. D.Y. Patil Institute of Technology, Akurdi | ELV & Security domain presentation to Instrumentation Engineering students Apr 2026

KEY CONTRIBUTIONS

Automatic Door Trim LSP Script ★ Best Kaizen Award Winner 500 doors manually $\approx$ 40 minutes $\rightarrow$ under 5 seconds regardless of quantity	Oct 2024 – Oct 2025
Automated Riser Diagram — CAD Blocks + LSP File ☆ Nominated 100 doors/cameras riser: 2–3 hours $\rightarrow$ under 45 minutes	Oct 2024 – Oct 2025
Device Count LSP File ☆ Nominated 30–60 minute manual count $\rightarrow$ under 1 minute	Oct 2024 – Oct 2025
VESDA Pipe Measurement Legend — Bluebeam Click-to-measure tool eliminating manual pipe length calculation — dimensions appear automatically from panel to each hole location	Oct 2025 – Present
Standard Fire & Security Legend — Bluebeam Unified ELV & FAS takeoff template standardised across all Continental Europe data centre projects	Oct 2025 – Present
CAD Blocks Library — 5 Custom Libraries Block placement: 1–2 minutes $\rightarrow$ under 10 seconds <i>Also delivered Security Systems, AutoCAD and Bluebeam training sessions for newly onboarded engineers and stakeholders including teams in Germany.</i>	Oct 2023 – Oct 2024

EDUCATION

B.E. Electronics & Telecommunication Engineering Dr. D. Y. Patil Institute of Technology, Pune CGPA: 8.47 / 10.00	2019 – 2023
HSC — PCM (CBSE) 75.60% SSC (CBSE) 90% Central India Public School, Nagpur	2019 / 2017

PUBLICATIONS

“Real-Time Hand Gesture Recognition with Voice Conversion for Deaf and Dumb,” ICCUBEA 2023, Pune, India — [IEEE Xplore](#)
