

ADITYA KOLEY

Physical Security & Safety Leader | Surveillance, Access Control & IDS | Investigations | Physical Security Risk & Operations Management

Phone: +91 8420045683 | Email: adityakoley1997@gmail.com | Location: Ghaziabad, UP, India

EXECUTIVE PROFILE

Security & Safety professional with 7+ years of experience leading physical security operations in manufacturing and high-security environments. Expertise in CCTV, Access Control Systems (ACS), and Intrusion Detection Systems (IDS), with full ownership of incident management and investigations.

Proven ability to manage end-to-end security functions including budget control, vendor management, and leadership of a 50+ member security workforce. Experienced in UICC, eSIM, and secure banking card production environments, with strong exposure to GSMA-SAS, NPCI, and ISO physical security compliance and audits.

Recognized for driving robust security frameworks, enforcing SOPs, and ensuring asset protection, risk mitigation, and operational excellence.

CORE COMPETENCIES

Security Operations & Strategy

- End-to-End Physical Security Management
- Multi-site Security Operations Leadership
- Security Systems (CCTV, ACS, IDS) Governance
- Critical Infrastructure & Asset Protection

Leadership & Workforce Management

- Managing 50+ Security Personnel (Security Officers, Supervisors, Guards & CCTV Operators)
- Guard Force Optimization & Deployment Strategy
- Performance Management & Training

Vendor & Budget Management

- Security Budget Ownership & Cost Optimization
- Vendor Management (Manpower & Technology)
- SLA/KPI Monitoring & compliance

Risk, Compliance & Investigations

- High-Value Investigations (Theft, Fraud, Security Breach)
- Physical Security Risk Assessment & Vulnerability Management
- Physical Security Audit Readiness (GSMA-SAS, NPCI, ISO)

Incident & Crisis Management

- Emergency Response Planning & Execution
- Fire Safety & Evacuation Management

- Incident RCA & Preventive Controls

PROFESSIONAL EXPERIENCE

Security & Compliance Executive (Physical Security In-charge)

Colorplast Systems Pvt. Ltd. (September 2023 – Present)

- Lead end-to-end physical security operations for a high-security manufacturing environment.
- Manage a 50+ members of security team including Security Officers, Supervisors, Guards, and CCTV Operators.
- Control security budget planning, utilization, and cost optimization initiatives.
- Handle vendor management including security agencies and system providers, ensuring SLA compliance and service quality.
- Drive enterprise-wide CCTV, ACS, and IDS operations across critical zones.
- Directed investigations including theft, unauthorized access, and security breaches.
- Conduct risk assessments and threat analysis, implementing preventive controls.
- Oversee 24/7 control room operations ensuring real-time monitoring and response.
- Establish and enforce security SOPs, policies, and compliance frameworks.
- Executed physical security audit readiness and compliance for GSMA-SAS, NPCI, and ISO standards.
- Coordinate with auditors and internal stakeholders for gap closure and certification success.
- Design security infrastructure layouts using AutoCAD for optimized surveillance and coverage.

Security & Loss Prevention Officer

Xpressbees Logistics Pvt. Ltd. (May 2021 – September 2023)

- Managing loss prevention and investigation operations across warehouse facilities.
- Resolved 50,000+ discrepancy cases including theft, shortages, and damages.
- Conducted CCTV-based investigations and evidence analysis.
- Implemented loss prevention strategies, reducing operational risk.
- Strengthened physical security processes and compliance controls in coordination with operations teams

BMS Operator

Teleperformance (September 2019 – April 2021)

- Oversaw CCTV, Access Control, Fire Alarm, and safety systems.
- Monitored surveillance and responded to security incidents in real time.
- Generated system reports and maintenance documentation.

KEY ACHIEVEMENTS

- Lead physical security framework enabling successful GSMA-SAS certification (UICC & eSIM).
- Directed physical security framework enabling successful PCI-CPP & PCI-DSS certification for secure banking card production.
- Achieved zero major non-compliance during physical security audits.
- Successfully handled 1000+ critical security investigations.

- Recognized as Top Performer (2022) for leadership and security operational excellence.

CERTIFICATIONS

- Security Management
- Health & Safety Induction
- CPR, AED & First Aid
- Fire Safety Induction
- ISO 19011 Lead Auditor
- ISO 27001:2022 / Amd1:2024 Information Security Management System (ISMS)

TECHNICAL EXPERTISE

Security Systems

- CCTV Surveillance Systems
- Access Control Systems
- Intrusion Detection Systems

Operational Tools

- Microsoft Office (Word, Excel, PowerPoint)

Security Documentation

- Security Incident Reporting
- Risk Assessment Documentation

Additional Knowledge

- Hardware & Networking Fundamentals
- AutoCAD (2D & 3D)
- CNC Programming Fundamentals

EDUCATION

- B.Tech (Bachelor of Technology) in Mechanical Engineering (WBUT) — CGPA: 7.35 (Year-2019)
