📍 Pune, Maharashtra, India

Professional Summary

CCNA-certified Network Operations Specialist with **6+ years** of experience managing enterprise-scale network infrastructure. Proven track record in reducing network incidents by **40%** through team leadership and process optimization. Expert in troubleshooting critical network outages, managing vendor escalations, and ensuring **100% uptime** for mission-critical systems across telecommunications, banking, and smart city projects.

Technical Skills

Routing Protocols: BGP, OSPF, EIGRP, IS-IS, Static/Dynamic Routing, MPLS, VRF, VRRP, HSRP

Switching Technologies: VLAN, STP, RSTP, PVST/PVST+, Inter-VLAN Routing, Port Binding, Trunking

Network Equipment: Cisco (2950/2960/3560/3650/3845/2911/1841), HPE (HSR6804, 12908E, 5945, 5940), Aruba (2930M), Juniper Mist, Cradlepoint, Verizon BeasBox, Cisco Meraki

Monitoring & Ticketing: ServiceNow (SNOW), ETMS, NNMI, SMAX

Infrastructure: Structured Cabling (Cat5/Cat6), Rack Management, Server Configuration (Windows Server 2003/2012/2016, Data Center Operations, CCTV Systems, IP Telephony, UPS (1-10 KVA)

Certifications: CCNA (Routing & Switching), PMP (LinkedIn Learning)

Tools & Platforms: Secure CRT, Putty, TemIP, Meraki Portal, BGW, SNM, DSAT, ESP, NPS, ECM, Grafana, Cisco Finesse/Jabber, Slack

Professional Experience

Network Specialist Engineer

Feb 2025 – Present

HCL Technologies Ltd (Verizon Project - Target Customer)

Nagpur, India

- **Verizon project:** Manage global enterprise network infrastructure ensuring high availability and stability across multi-vendor environments serving Target operations
- Execute advanced routing and switching protocols (**BGP, OSPF, EIGRP**) on Cisco and Juniper core platforms, optimizing network performance and reliability for enterprise customers
- Troubleshoot and maintain WAN, LAN, MPLS, DIA and wireless networks across Cisco, Mist (Juniper), Cradlepoint, and Verizon BeasBox units, ensuring minimal downtime
- Support **Cradlepoint 4G/5G routers** performing LTE failover and diagnostics; deploy and maintain VM-based virtual routers in production environments
- Lead **critical outage bridge calls** coordinating cross-functional teams for rapid service restoration; create detailed RCA reports and technical documentation for knowledge base
- Manage incident, problem, and change control using ServiceNow (SNOW) and ETMS; work with ETMS, NMT, BGW, SNM, DSAT, ESP, CISCO Meraki, Mist, NQT, and NPS ECM tools
- Provide **24/7 on-call support** via Cisco Finesse/Jabber and Slack, resolving escalations within defined SLAs while maintaining comprehensive knowledge base

Network Engineer

Dec 2021 – Nov 2024

Arceus Infotech Pvt Ltd

Pune, India

- **Pimpri Chinchwad Smart City Project:** Led network operations team of **10 engineers**, achieving **40% reduction** in network-related complaints through optimized troubleshooting processes and proactive monitoring
- Configured and maintained **HPE 12908E core switches**, HPE 5945/5940 distribution switches, and Aruba 2930M access switches for city-wide smart infrastructure deployment
- Ensured **100% uptime** for core network and data center devices supporting critical municipal services across **170+ sq km** smart city project
- Collaborated with government stakeholders and OEM vendors to design and implement network infrastructure aligned with RFP requirements and project timelines
- Managed daily queue workload, escalations, and technical support cases while maintaining detailed network documentation and configuration records
- **Union Bank of India Project:** Provided on-site field engineering support for LAN/WAN infrastructure across **50+ bank branches**
- Led team of **3 engineers** delivering network installations, upgrades, and troubleshooting for banking operations with zero critical downtime
- Translated stakeholder technical requirements into solution designs with detailed BOQs and cost estimations, saving 20% on infrastructure costs

- Maintained transparent project status communication with all stakeholders, ensuring on-time delivery of network deployments

Executive - Client Relations

Jun 2020 – Dec 2021

Lupin Limited

Pune, India

- Managed client engagement and relationship development across pharmaceutical accounts, achieving quarterly and annual business targets through strategic account planning
- Coordinated appointment scheduling and maintained communication with current and prospective clients to ensure seamless service delivery
- Delivered technical product presentations and demonstrations to healthcare professionals and stakeholders, effectively communicating complex pharmaceutical solutions
- Maintained detailed records of all client interactions, meetings, and administrative documentation for accurate tracking and follow-up
- Networked with key decision-makers to identify opportunities and expand organizational reach within assigned territories

Key Achievements

- Reduced network-related complaints by **40%** through team leadership and process optimization at PCMC Smart City project
- Maintained **100% uptime** for core network and data center infrastructure serving critical government and banking operations
- Successfully managed network operations for **India's largest smart city initiative**, supporting 170+ sq km infrastructure serving municipal services
- Led and mentored team of **10 network engineers**, delivering complex network deployments on schedule and within budget
- Managed network infrastructure across **50+ Union Bank of India branches**, ensuring seamless banking operations
- Deployed VM-based virtual routers and Cradlepoint 4G/5G solutions for enterprise-grade failover and redundancy
- Led critical outage bridge calls for **global Verizon enterprise networks**, coordinating rapid cross-functional service restoration
- Implemented proactive monitoring using Grafana and Verizon NPS analytics, **reducing MTTR** for incidents
- Configured and optimized multi-vendor infrastructure (Cisco, HPE, Aruba, Juniper) achieving **99.9% network availability**
- Created comprehensive RCA reports and technical documentation improving incident response and knowledge transfer
- Translated complex technical requirements into actionable solution designs with detailed BOQs, **saving 20%** on costs
- Contributed to **Government of India's Smart City Mission** as system integrator for Pimpri Chinchwad Smart City project

Education

Bachelor of Engineering in Electronics & Telecommunication

Hi-Tech Institute of Technology, Aurangabad

Nov 2019

CGPA: 5.66/10
