

SUMMARY

A seasoned IT professional with over **15 years of experience** in **Managed Services, IT Infrastructure, and Project Management**. He has led large-scale **Safe City, Smart City, and Crime & Criminal Tracking Network Systems (CCTNS) projects**, working with organizations like **Bonsai Enterprises, Ernst & Young, NIIT Technologies, and Allied Digital Services**. With expertise in **team leadership, IT service delivery, and stakeholder management**, he has successfully executed **multi-site surveillance, automation, and infrastructure projects** across India. A **CCNA-certified networking specialist**, he has a strong technical background in **Windows Server, Linux, SAP, and ITMS**. His ability to **strategize, optimize operations, and ensure seamless project execution** has earned him multiple awards and accolades for leadership and service excellence.

EXPERIENCE

Nangia Anderson CO LLP Since June 2025	Senior Consultant IT Infrastructure
Karnal Site	Working on Smart City Karnal Project, focusing on enhancing urban mobility, smart civic infrastructure, and service delivery to improve citizens' quality of life. • Promoted participative governance and data-driven decision-making for sustainable urban development. • Implemented smart city solutions to foster economic growth, tourism, and community engagement.
Bonsai Enterprises Ltd March 2024 – April 2025	Senior Manager – Service Delivery & Project Management
Puducherry City	Focused on enhancing urban mobility, smart civic infrastructure, and service delivery to improve citizens' quality of life. Spearheaded efforts to position Puducherry as a global tourism hub by leveraging its heritage, cultural, spiritual, and educational strengths. Promoted participative governance and data-driven decision-making for sustainable urban development. Implemented smart city solutions to foster economic growth, tourism, and community engagement. • Led and monitored multiple infrastructure projects, ensuring timely completion of tasks. • Determine and define project scope, objectives, and deliverables in alignment with business goals. Ensure clear communication of expectations to all stakeholders and teams involved. • Develop, manage, and maintain a detailed project schedule and work plan to ensure timely and successful project execution. • Predict and allocate necessary resources to meet project objectives. Manage resources effectively and efficiently throughout the project lifecycle. • Successfully completed excavation, foundation, and pole installation across various project phases. • Oversaw cable trenching, junction box installations, and meter installations, ensuring adherence to quality standards. • Managed camera installation (PTZ & Fix), network switches, and UPS battery installations under the Surveillance & ITMS Update. • Ensured effective coordination for spring earthing, chemical earthing, and lightning arrester setups. • Addressed pending tasks proactively, reducing bottlenecks and accelerating work progress. • Utilize industry best practices, techniques, and standards throughout the execution of the project to ensure the highest quality of service delivery. • Manage contracts and relationships with vendors and suppliers. Assign tasks, set expectations for deliverables, and ensure the timely completion of vendor responsibilities. • Maintained real-time project tracking with WIP (Work in Progress) and Completed task analysis. • Provide consistent project updates to stakeholders, reporting on strategy, progress, and any necessary adjustments. Ensure transparent communication and alignment across • Anticipate potential issues and risks that could hinder project rollout. Implement corrective measures and resolve challenges proactively to minimize delays or disruptions. • Possess deep knowledge and experience in managing large-scale project deliveries,
Scope and Responsibilities	

	including the ability to meet tight deadlines and deliver high-quality results. • Handle business and customer escalations with professionalism and urgency, ensuring swift resolution of issues and maintaining positive client relationships. • Capable of working under pressure on mission-critical projects, ensuring that the delivery of services and products meets the highest standards.
Bengaluru Netra Project Scope and Responsibilities	The project required active collaboration among various State departments, including but not limited to the Police. The Safe City initiative focuses on enhancing existing infrastructure to meet citizen demands for a safer urban ecosystem for women. Funded under the Nirbhaya scheme, the initiative aims to ensure the safety of women and children by creating a secure and empowering environment in public spaces, enabling them to pursue opportunities free from the threat of gender-based violence and harassment. • Led ITMS implementations across 253 Sites for Bengaluru City Surveillance. • Led around 50 Sites for ANPR- To develop a well-organized system in the vehicle number plate detection along with Gantry installations. The major techniques used in the implementation of the designs are gray scale conversion, black and white image conversion, filling holes, border detection and image segmentation. • Managed O&M for 2000+ Locations under Netra Project. • Streamlined design, planning, & deployment of IT infrastructure and set the monitoring solutions for Automation and SLA. • Tasked with Team Management, Project Management, design, implementation, integration, commissioning, and testing calibration of Broadcast IT systems. • Collaborated with internal resources and third-party vendors for the flawless execution of projects. • Executed Monthly/Quarterly business reviews with internal stakeholders. • Implemented Gantt Charts for project planning, ensuring clear and visual representation of timeframes, task scheduling, and dependencies. Simplified milestone tracking by integrating predecessors and dependencies, enhancing project transparency and efficiency.
Shillong Smart City Scope and Responsibilities	The installation of Smart Poles in Shillong Smart City involves the integration of several smart components aimed at improving urban infrastructure, communication, and public safety. Here's a structured overview of such a project, including Smart Poles, Master Display (MD), and Public Address (PA) Systems. • High-mast or standard streetlight pole. • Weather-resistant enclosures for equipment. • Power backup (battery or UPS). • CCTV surveillance cameras (PTZ & fixed). • LED Street lighting with remote control/dimming. • Wi-Fi hotspot (public internet access). • Edge computing unit or gateway for local data processing. • Display city announcements, traffic alerts, and weather forecasts. • Integration with city dashboard for dynamic content updates. • Central control from Integrated Command and Control Center (ICCC). • Automated alerts (weather warnings, curfew, and lockdown). • Sync with visual display for inclusive communication.
Allied Digital Services Ltd Nov 2022 – Dec 2023	Senior Manager - Service Delivery & Managed Service
Lucknow Safe City Scope and Responsibilities	Lucknow Safe City (WPL1090, UP112)- An initiative of Govt. of India under the Nirbhaya funds scheme for ensuring safety of women and children. The Safe City project aims to create a safe, secure and empowering environment for women in public places, to enable them to pursue all opportunities without the threat of gender-based violence and/or harassment. • Developed Gantt Charts for project planning, providing a clear and visual representation of timelines, task scheduling, and dependencies. Ensured easy tracking of milestones by integrating predecessors and dependencies, enhancing project clarity and efficiency. • Collaborated with internal resources and third-party vendors for the flawless execution of projects. • Streamlined project scopes and objectives by collaborating with stakeholders to ensure technical feasibility and seamless execution. • Designed the Scope of Work (SOW) for vendors, ensuring optimal resource availability and efficient allocation. • Utilized verification techniques to effectively manage project scope, schedule, and cost. • Measured project performance using appropriate systems, tools, and methodologies. • Prepared reports and escalated critical issues to management as needed.

	• Maintained strong client and stakeholder relationships, ensuring seamless communication. • Conducted risk management to identify and mitigate potential project risks. • Established and nurtured relationships with third-party vendors for smooth operations. • Ensured timely invoicing and payment collection, maintaining financial discipline. • Maintained a proactive follow-up approach to drive project success. • Set clear client expectations and managed them with transparency and professionalism. • Scheduled and prioritized weekly client management tasks for streamlined operations. • Took a proactive leadership approach, anticipating challenges and acting decisively. • Built strong client rapport through empathy and active engagement. • Delivered exceptional customer service, ensuring accountability at all touchpoints. • Efficiently managed Material Receipt Notes (MRNs) for all deliverables.
Ernst & Young (EY LLP) Apr 2019 – Nov 2022	Senior Project Consultant – Business Advisory & Service Delivery
Uttar Pradesh	The Government of Uttar Pradesh aimed to establish a seamless information-sharing system across the Uttar Pradesh Police Department, ensuring that critical data reaches the right people and systems securely and efficiently to support e- Governance functions. The Transformation Team was responsible for designing citizen-centric services in compliance with defined standards, ensuring timely service delivery. The Crime and Criminal Tracking Networks and Systems (CCTNS) initiative created a comprehensive, integrated platform to enhance policing efficiency through e-Governance.
Scope and Responsibilities	• Coordinated handover activities for ongoing critical incidents, ensuring seamless transitions. • Led a team of 150+ service engineers across the state, overseeing technical operations. • Managed Service Desk Operations at Police Headquarters, Lucknow, ensuring efficient support. • Identified training needs and conducted training sessions to enhance team performance. • Developed and maintained rosters for the service desk team for smooth workflow management. • Prepared daily, weekly, and monthly reports, tracking performance and issue resolution. • Ensured high client satisfaction by overseeing technical troubleshooting and service delivery. • Analyzed recurring issues and implemented proactive solutions to prevent reoccurrence. • Managed incident and problem resolution efficiently, ensuring quick response times. • Conducted monthly/quarterly business reviews with internal stakeholders to assess progress.
ITS Planner & Engineers Pvt. Ltd. Oct 2018 -Apr 2019	Project Manager – Service Delivery & Smart City Initiatives
Scope & Responsibilities	• Implemented Adaptive Traffic Control System (ATCS), a dynamic traffic management strategy that adjusts signal timings based on real-time traffic demand using integrated hardware and software. • Managed traffic management system implementation across multiple districts, ensuring seamless operations. • Led on-ground deployment of traffic signals, overseeing the entire implementation process. • Handled client interactions and managed multiple stakeholders, ensuring smooth coordination. • Supervised operations across 200+ sites, ensuring timely project execution. • Integrated ICCC (Integrated Command & Control Center) with various GPS-based tracking systems for enhanced monitoring and efficiency.
NIIT Technologies Ltd. Oct 2012– Oct 2018	Project Manager - Operations and Service Delivery
Scope & Responsibilities	• Ensured timely resolution of escalated issues while effectively handling irate users to maintain service satisfaction. • Managed invoicing processes, ensuring accurate categorization and timely follow-ups for completion. • Coordinated with multiple vendors, including Lenovo, HP, Samsung, Wipro, Acer, BSNL, HCL, and D-Link, to streamline procurement and service operations. • Identified recurring issues and implemented preventive solutions to eliminate repeat occurrences. • Efficiently handled Incident, Problem, Change, and Asset Management, ensuring seamless IT

	operations. • Conducted monthly/quarterly business reviews with internal stakeholders to track progress and improvements. • Ensured high client satisfaction by overseeing technical troubleshooting and service delivery. • Initiated and conducted staff briefings, theoretical training sessions, and hands-on workshops to enhance workforce efficiency. • Assessed and addressed training needs, organizing relevant sessions for the team's professional growth. • Managed service desk rosters, optimizing workforce allocation for seamless operations. • Prepared and analyzed daily, weekly, and monthly reports for performance evaluation and decision-making. • Led and coordinated the escalation process, ensuring prompt issue resolution. • Supervised handover activities for ongoing critical incidents, ensuring smooth transitions. • Led a 150+ service engineer team across the state, ensuring optimal resource utilization. • Directed Service Desk Operations at Police Headquarters, Lucknow, ensuring efficient IT support and service management.
2011-2012 Gemini Communication Ltd.	Senior Technical Coordinator
2009-2011 Orange Business Group	LAN/WAN Administrator
2008 - 2009 CMS Computers Limited	System Engineer
2007 - 2008 HCL Info systems Ltd	Technical Support Engineer
2006 - 2007 Computer Home	Network Engineer
2005 - 2006- HAL	Hardware and Network Engineer
2005 K.S.S Solutions	Hardware and Network Engineer

KEY SKILLS

- Leadership,
- Team Management
- Strategic Planning
- Decision Making
- Problem Solving
- Critical Thinking
- Customer-centric Approach
- Stakeholder Management
- Vendor Management
- Time Management
- Presentation Skills
- Adaptability & Resilience

TECHNICAL SKILLS

- **Operating Systems** Windows Server, Linux, Fedora Stakeholder Management
- **Networking** CCNA Certified, LAN/WAN Management
- **Software & Tools** SAP, Telnet, MS Office Suite

CERTIFICATIONS

- **Cisco Certified Network Associate (CCNA)** | 2007
- Diploma in **Computer Hardware & Networking** (Lal Bahadur Shastri University) | 2006
- Certified '**Computer Operating and programming Assistant**' from Govt. Industrial Training Institute, Lucknow | 2006
- Certified '**Website Development & Deployment**' from small industries service Institute, Kanpur | 2005
- Certified in **Psychorientology** – Laredo, Texas, USA

EDUCATION

- **Masters of Computer Application (MCA)** – IEC University, H.P – 2020
- **Bachelors of Computer Application (BCA)** – Nagaland Open University - 2013

REWARDS & RECOGNITIONS

- **Recognized with the "Best Excellence Award" (2013)** for outstanding performance and service delivery.
- **Awarded Core Team Allowance of ₹60,000** by **NIIT Technologies Limited** for **exemplary leadership** (Sep 2016, Aug 2017).
- **Received multiple client and internal recognitions**, including **EY Kudos Awards**, for exceptional project execution and customer satisfaction.
- **Consistently acknowledged as a "Customer Choice" performer**, earning numerous appreciations from clients and internal stakeholders.
