

Indrajeet Kumar

E-Governance & IT Infrastructure

IIT BHILAI, India | +91 9555952791 | indrajeet1705@gmail.com

SUMMARY

Project Manager with over 11 years of proven experience in leading large-scale e-Governance, Smart City, and IT Infrastructure projects. Proven expertise in managing Data Center operations, NOC monitoring, CCTV, AI-based analytics, and emergency response systems. Expertise in managing state-wide e-Governance delivery, IT service delivery, project operations, and ensuring seamless government engagement. Proficient in project management methodologies, service delivery, and IT infrastructure execution including servers, networks, cyber security, and data centers. Strong leadership skills with the ability to coordinate with senior government officials, mentor teams, and deliver operational excellence.

Core Expertise:

- e-Governance & IT Infrastructure Delivery
- Project Management Methodologies & PMO
- Service Delivery & SLA Compliance
- Server & Network Administration
- Data Center Operations & Backup/Recovery
- Cyber security & IT Security Audits
- Risk Identification & Mitigation
- Government Stakeholder Engagement
- Strategic Planning & Operational Excellence
- Budgeting, Resource & Vendor Management
- Capacity Building & Training
- Process Improvement & Workflow Automation
- Low Voltage System Design (ACS, CCTV, FAS, PAS, VESDA, WLD, IAS)
- Tendering, Estimation & Technical Compliance
- BOM Preparation & Cost Optimization
- OEM/Vendor Negotiation & Engagement
- Technical Write-ups & Proposal Engineering
- Pre-Bid Meetings & Client Coordination
- Value Engineering & System Optimization
- Documentation: System Philosophy, Datasheets, Compliance
- Client Handling & Presentation Skills

PROFESSIONAL EXPERIENCE

Presto Infosolutions

Project Manager | Apr 2025 – Present | Durg, India

Project: IIT Bhilai – State-wide IT Infrastructure Implementation

- Overall handling of project operations ensuring timely resolution of routine issues.
- Worked closely with IIT/state government officials to gauge and create demand for strategic IT solutions.
- Developed and implemented project management procedures, methodologies, and risk management plans.
- Managed the Customer Complaint Redressal System, ensuring adherence to response and resolution SLAs and driving corrective & preventive actions.
- Achieved 100% completion of preventive and breakdown maintenance across multiple sites.
- Provided critical escalation support to resolve high-severity customer issues swiftly.
- Streamlined Spare Parts Management by coordinating with OEMs, maintaining optimal inventory, tracking consumption, and analysing component failures.
- Strengthened customer relationships through regular engagement, solution proposals, and system upgrade recommendations.
- Conducted detailed site audits and implemented preventive measures to minimize downtime and rework.
- Led team performance governance, including monitoring KPIs, scheduling, attendance, and upskilling team members in coordination with HR.
- Coordinated with OEMs and B2B contractors to ensure timely maintenance support, compliance, and quick issue resolution.
- Ensured timely invoice submission, improved collections, and reduced DSO to support healthy cash flow.
- Liaised with cross-functional teams—HR, SCM, Finance, OEMs—to ensure seamless operational delivery.
- Managed site engineer deployment, task allocation, and operational discipline across locations.
- Handled Contract P&L, reducing operational costs and improving contract margins through better planning and governance.

Technosys Group

Assistant Project Manager | Apr 2023 – Apr 2025 | Raipur, India

Project: Naya Raipur Infrastructure – Surveillance & Security (e-Governance domain)

- Managed surveillance and intelligent video analytics integrated with e-Governance systems.

- Ensured effective supervision of SD-WAN, LAN/WAN connectivity, servers, and cluster management at data centers.
- Coordinated with software development team for database/application backup and recovery.
- Monitored NOC operations, vendor management, and SLA compliance.
- Planned storage capacity, archiving, and recovery procedures for uninterrupted functioning.
- Implemented cyber security practices with help of teams.
- Created workflows, SOPs, FRS, SRS, and KPI frameworks.
- Facilitated seamless customer engagement with government stakeholders and resolved escalations.

Quess Corp Limited

Team Lead – Surveillance & Junction Cameras | Nov 2018 – Apr 2023 | Ahmedabad, India

Project: Ahmedabad Infrastructure – Surveillance & Transport-linked Infrastructure

- Led installation, commissioning, and maintenance of surveillance and transport-integrated infrastructure.
- Ensured 24/7 uptime of servers, network, CCTV, VMD, access control, and fire alarm sys.
- Coordinated with government officials, BSNL, Torrent Power, and vendors for site installations.
- Supervised documentation, audits, and security compliance.
- Handled budgeting, resource assignment, and operational risk management.
- Provided mentorship, training, and operational support to team members.

Vedang Cellular Services India

Project Engineer | Feb 2017 – Jul 2018

- Troubleshoot GSM site faults, optimized BSC site performance, and managed traffic shifting.
- Supported network upgrades, preventive audits, and improved service quality.
- Coordinated with vendors for resolution and continuity of services.

Satish Infotech

Network Engineer | Dec 2013 – Jan 2017

- Managed LAN/WAN troubleshooting, connectivity restoration, and vendor coordination.
- Provided technical support, ensuring uninterrupted services and IT operations.
