B.E. Electronics & Telecom
CCNA Trained | Hikvision Certified

PROFESSIONAL SUMMARY

Dynamic and results-driven Presales & Operations Manager with 10+ years of experience in IoT, energy management, and security surveillance (CCTV/IP Surveillance). Expert at end-to-end solution design, RFP/BOQ preparation, client demonstrations, and building high-performance PAN India teams. Proven ability to translate complex technical requirements into winning proposals, drive revenue growth through strategic presales, and manage cross-functional operations at scale. Hikvision Certified and CCNA Trained; well-versed in VMS platforms, network architecture, and API/SDK integrations.

KEY ACHIEVEMENTS

- Managed & mentored a **PAN India team of 10+ engineers**, consistently achieving monthly KRA targets across all regions.
- Designed and delivered **50+ customised BOQs & technical proposals** for enterprise and government clients in surveillance and IoT.
- Drove **9-year presales tenure** at Prama Hikvision — one of the world's top surveillance brands — rising from engineer to Assistant Manager.
- Provided API/SDK support enabling **3rd-party software integrations** for 5+ system integrators, reducing integration timelines significantly.

CORE COMPETENCIES

- | | |
|------------------------------|-------------------------------------|
| ▶ Presales & Solution Design | ▶ Network & System Architecture |
| ▶ BOQ / RFP / RFQ Management | ▶ API / SDK Integration Support |
| ▶ IoT & Energy Management | ▶ PAN India Team Leadership |
| ▶ CCTV & IP Surveillance | ▶ KRA Setting & Performance Reviews |

WORK EXPERIENCE

Lightforce BuildINT India Pvt. Ltd. — Mumbai

Sep 2025 – Present

Manager – Presales & Operations | IoT & Energy Management Solutions

- Lead end-to-end presales activities: solution design, BOQ/RFP/RFQ preparation, technical compliance documentation, and competitive benchmarking for IoT-based energy management solutions in commercial and healthcare sectors.
- Deliver customised solution presentations, POCs, and live product demonstrations to C-level and technical stakeholders, improving client conversion rates.
- Design system and network architectures aligned to customer site requirements; provide API/SDK integration support to software partners for third-party development.
- Manage and mentor PAN India field engineers — coordinate project allocations, conduct product training, evaluate monthly KRAs, and review performance reports.
- Handle post-sales and escalation support for IoT, CCTV (DVR/NVR/IPC/PTZ/Mobile DVR), Access Control, Intrusion Alarms, VDP, VMS platforms (Hikvision, Milestone, Genetec, Graymatics), X-ray Baggage, DFMD, networking switches, wireless bridges, and SAN storage.

- Represent the organisation at industry exhibitions and roadshows to generate leads and stay current with market trends.

PRAMA Hikvision India Pvt. Ltd. — Mumbai

May 2016 – Sep 2025 (9+ Years)

Assistant Manager – Presales | Security Surveillance & IP Video Solutions

- Delivered comprehensive technical presales support across Hikvision's full product portfolio — cameras, DVR/NVR, VMS, access control, and perimeter security — for projects across PAN India.
- Prepared BOQs, RFP/RFQ responses, and technical compliance documents; designed competitive analysis reports and project case studies to support the sales team in closing strategic deals.
- Provided API/SDK guidance to system integrators and software partners for custom development, including video analytics integrations and multi-site VMS deployments.
- Collaborated with R&D teams on product customisation, contributing to feature roadmaps based on market intelligence and customer feedback.
- Built and managed a PAN India presales/support team: coordinated project assignments, delivered product and technology training, and conducted monthly KRA evaluations.
- Actively participated in national roadshows, partner enablement events, and industry exhibitions to strengthen brand presence and channel relationships.

TP-Link India Pvt. Ltd. — Mumbai

Aug 2015 – Mar 2016

Technical Support Engineer | SOHO & SMB Networking

- Resolved inbound technical queries from customers across India via phone and remote sessions for SOHO and SMB networking products including wireless routers, access points, load balancers, EAPs, outdoor wireless, and cloud IP cameras.
- Managed RMA coordination, escalated critical issues to HO, and participated in new device testing and validation.

TECHNICAL SKILLS & TOOLS

Surveillance & IoT	Hikvision (DVR/NVR/IPC/PTZ/VMS), Prama, Milestone, Genetec, Graymatics, IoT EMS Platforms
Security Systems	Access Control, Intrusion Alarm, Video Door Phone, X-ray Baggage, DFMD, SAN Storage
Networking	SOHO/SMB Routers, Managed Switches, Wireless Bridges, EAP, Load Balancers, CCNA (Trained)
Presales Tools	BOQ Design, RFP/RFQ, Technical Compliance, Solution Architecture, POC/Demo, Proposal Writing
Software & Dev	API/SDK Integration, SQL, Linux (Basic), C/C++ (Basic), MS Office Suite
Leadership	PAN India Team Management, KRA Design, Training & Development, Vendor Coordination

EDUCATION & CERTIFICATIONS

Education

B.E. Electronics & Telecom — Mumbai University (2015) — 57%
HSC — Shrinivas Bagarkha College (2010) — 56.67%
SSC — Guru Nanak English High School (2008) — 69.53%

Certifications & Projects

- ✓ Hikvision Certified Professional
- ✓ CCNA Training Completed
- ✓ B.E. Project: Home Automation via Android
- ✓ Exhibition & Roadshow Participation (National Level)
