Summary

I have 6+ year experiences facility management. I have developed a strong expertise in ensuring the seamless operation, maintenance, and safety of facilities. I possess a deep understanding of building systems, including HVAC, electrical, plumbing, and security systems, and have a proven track record of overseeing day-to-day operations while maintaining high standards of efficiency and cost-effectiveness. My experience includes coordinating maintenance teams, managing vendor relationships, implementing preventative maintenance programs, and ensuring compliance with safety regulations. I am skilled at identifying and resolving facility issues promptly, improving energy efficiency, and creating an environment that supports business continuity. Strong communication and leadership skills have enabled me to work effectively with diverse teams, clients, and stakeholders, always prioritizing quality service and operational excellence. Government with statutory, legal and compliances. Inventory about medical equipment and facilities equipment and stores operation.
