

PRATAP BHUNIA

PRE-SALES MANAGER (ELV/ICT SYSTEM)

Kolkata, WB, India

(+91) 83199-27169

pbhunias41@gmail.com

TECHNICAL SKILLS

- Pre-Sales & Solution Architecture
- Bid Management & Tendering
- Vendor Management & Negotiation
- Project Management
- AutoCAD & BIM (Revit) Design

SOFT SKILLS

- Problem Solving
- Decision Making
- Risk Analysis & Assessment
- Team Management & Mentoring

APPLICATIONS & TOOLS

- AutoCAD, Revit, MS Visio
- MS Office (Excel, Word, PowerPoint)
- SharePoint
- CRM: Salesforce, SAP CRM
- VMS Platforms: Dahua, Hikvision, Infinova, Milestone, Genetec, Victor, i2V, Honeywell, Bosh, Algo Vision
- IBMS Platforms: Johnson Controls Metasys

EDUCATION

BACHELOR OF TECHNOLOGY

Electrical Engineering

WBUT, Kolkata

2012 - 2016

CERTIFICATION

- Six Sigma Yellow Belt
- Advanced Google Analytics
- Marketing Analytics
- Operation Management

PROFESSIONAL SUMMARY

Results-driven ELV & ICT professional with 10+ years of experience in Pre-Sales Engineering, Bid Management, Tendering, Solution Design, AutoCAD & Revit, Vendor Management, and Project Management. Experienced in global project delivery (India, APAC, UK, USA, Middle East) with proficiency in RDSO, NFPA, IS, and NBC standards. Organized, self-driven, and detail-oriented, bridging technical solutions with commercial objectives for successful project outcomes.

CORE COMPETENCIES

- **Bid Management & Tendering:** Support end-to-end bid process, prepare Detailed Project Report (DPR), RFP, technical specifications, Scope of Work (SOW), SLA, system architecture, and Bill of Materials (BOM). Ensure compliance with solution design, delivery processes, business controls, and timely approval closure before bid submission.
- **Pre-Sales & Solution Design:** Design customized ELV & ICT solutions aligned with client business goals. Create system architecture, CAD drawings (AutoCAD & Revit), device layouts, and conduct site surveys as needed.
- **Team Management:** Supervise, mentor, and train presales engineers. Review proposed solutions to ensure alignment with organizational standards before delivery.
- **Client Engagement:** Build relationships with private & public sector enterprises, PSUs, government departments, system integrators, banks (public & private), and consultants. Conduct meetings, solution presentations, Proof of Concept (POC), and product demonstrations.
- **Vendor Management:** Identify, onboard, and manage OEMs/partners for ELV/ICT products. Negotiate pricing, T&Cs, and SLAs. Ensure timely delivery, cost competitiveness, and compliance. Coordinate BOM finalization, price benchmarking, and pre-bid qualifications.
- **Sales Support:** Collaborate with sales team to align technical solutions with sales strategies. Identify upsell/cross-sell opportunities in existing accounts.
- **Qualification & Risk Assessment:** Evaluate project feasibility and risks. Identify technical, operational, or financial constraints affecting engagement success.
- **Cost Analysis:** Develop cost estimates aligned with client budget and ROI expectations.
- **Hands-On Technical Expertise:** Demonstrated experience in Smart City & Building Technology solutions, including Intelligent Traffic Management Systems (ITMS), Integrated Command & Control Centers (ICCC), and Integrated Building Management Systems (IBMS/BMS). Core expertise in CCTV Surveillance, Video Management Systems (VMS), AI-based Video Analytics, Digital Signage, Physical Access Control, Perimeter Intrusion Detection (PIDS), Fire Detection & Alarm Systems, Public Address (PA), IP PBX, Energy Management, IoT-enabled infrastructure, and Campus-wide Wi-Fi networks, supporting both smart buildings and large-scale urban infrastructure environments.

PROFESSIONAL EXPERIENCE

E SQUARE SYSTEM & TECHNOLOGIES PVT. LTD.

Pre-Sales Manager

Nov 2025 – Present

- Lead Pan-India ELV Pre-Sales, Design, Bid Management, and Technical Engineering operations, ensuring timely and accurate delivery of technical proposals and solution documents.
- Handle hands-on and lead site survey, solution architecture, BOQs, tender compliance, DPR prep, RFP drafting, and complete tendering for multiple ELV system types.
- Manage and mentor the ELV design team, performing design validations, quality checks, workload planning, and technical governance across all regions.
- Support project management through solution reviews, design approvals, engineering clarifications, and coordination with execution teams for seamless delivery.
- Conduct internal technical training programs, develop competency-building modules, and enhance technical skillsets across the organization.
- Collaborate with sales, OEMs, procurement, and cross-functional teams to deliver competitive, standards-compliant, and commercially optimized solutions.
- Implement engineering best practices, design templates, and process improvements to enhance proposal accuracy, team productivity, and technical win-rate.

DAHUA TECHNOLOGY INDIA PVT. LTD.

Pre-Sales Manager

May 2023 – Oct 2025

- Managed 6 pre-sales engineers, delivered technical solutions, organized training, and aligned proposals with sales strategies to drive revenue and satisfaction across the east India region.
- Created winning proposals, BOQs, RFPs, DPRs, tender specs, pre-bid queries, and compliance docs with value-driven client propositions.
- Streamlined sales-technical collaboration to deliver tailored solutions, increasing revenue growth and achieving high client satisfaction.
- Partnered with System Integrators (SI), consultants, government depts, PSUs, and private customers to understand requirements and design project solutions.
- Conducted site surveys, POCs, and demos to validate functionality and ensure all required parameters were met.

JOHNSON CONTROLS (INDIA) PVT. LTD.

Application Engineer

Jun 2021 – Apr 2023

- Delivered end-to-end application engineering for Smart Building, IBMS, ELV, Fire & Life Safety, and Security systems across Concept, FEED, and Detailed Design phases per company standards.
 - Analyzed customer specifications, MEP drawings, codes, and SOPs to develop compliant system designs including AutoCAD layouts, block diagrams, device selection, BOM/BOQ, proposals, and cost estimates.
 - Prepared pre-bid engineering documentation such as RFIs, compliance/deviation matrices, and risk logs; actively participated in project kick-off and design review meetings to resolve technical queries.
 - Followed standardized estimation processes and quality guidelines to select hardware, software, controllers, network components, and services for cost-effective, reliable solutions.
 - Supported project execution and delivery assurance by managing technical clarifications, escalation support, periodic progress reporting, and contributing to defect-free, on-time deliverables and customer satisfaction.
-

PRAMA HIKVISION INDIA PVT. LTD.

Sr. Executive Solution Design

Feb 2020 - May 2021

- Designed winning proposals, BOQ, RFP, DPR, tender specifications, OEM Pre-Qualifications, pre-bid queries, and tender compliance documents aligned with client business needs.
- Collaborated with system integrators, consultants, government departments, PSUs, private customers, and project leaders to understand requirements, design projects, and support successful execution and troubleshooting.
- Conducted site surveys, Proof of Concept (POC), and product demonstrations to verify functionality and ensure required parameters were met.
- Prepared competitor analysis to understand competitor offerings, capabilities, and market positioning.
- Organized and delivered online and hands-on training to system integrators (SIs), distributor partners, and internal sales teams on products and new solutions.

CMS COMPUTERS LTD.

Field Engineer (Project)

Jul 2017 - Feb 2020

- Designed, installed, commissioned medium to large-scale integrated security, ELV, and IBMS solutions including CCTV surveillance, VMS, Fire Alarm Systems, Access Control, Attendance System, Gate Automation, Energy Management System (EMS), and Availability Based Tariff (ABT) System.
- Conducted site surveys, prepared detailed site survey reports, and developed Bill of Materials (BOQ) based on customer requirements and site conditions.
- Managed vendor relationships including coordination with OEMs and distributors, submitted technical requirements, obtained competitive quotations, and negotiated pricing for cost-effective procurement.
- Collaborated with project managers, customers, vendors, and site stakeholders to ensure timely project delivery and milestone adherence.
- Coordinated with customers for bill certification and payment follow-ups to support positive cash flow and project financial health.

SECURITY ENGINEERS PVT. LTD.

Centre Supervisor

Jul 2016 - Jul 2017

- Performed testing, installation, commissioning, and maintenance of CCTV Surveillance System, Physical Intrusion Detection System, Access Control System, and Fire Alarm System.
 - Prepared BOQ, proposals, tender documents, and pre-bid queries; attended tender meetings, delivered product demonstrations, and drafted agreement documents after tender wins.
 - Coordinated with technicians and vendors for material arrangement to ensure timely and successful completion of installation works.
 - Handled customer complaints, maintained service records, assigned engineers, and followed up to close complaints as per SLA.
 - Generated and submitted bills to respective departments for payment, followed up with customers for payment, and trained, evaluated, and monitored team performance to achieve branch targets.
-
