

SHEMEER BADARUDEEN

Security Design & Operations, PMP|PSP|CPP

Address: Al Mamzar, Street 15C, Dubai.
Phone:UAE: +971 52 12 666 56, India: +91 9656360596 - Email: shemeerbadar12@gmail.com
Date of Birth: 12 Dec 1988 Driving License: United Arab Emirates, Qatar, KSA, India | UAE Golden Visa

Professional Summary

Accomplished Security Systems Design & Operations Manager with over 14+ years of experience leading end-to-end security infrastructure for iconic projects such as EXPO 2020, Red Sea Global ultra-luxury developments, and major financial institutions. Demonstrated expertise in both the design and operational management of complex systems, including VMS, ACS, and PSIM platforms, within high-risk, mission-critical environments. Skilled in bridging design intent with operational efficiency, ensuring reliable, scalable, and compliant security solutions. Adept at managing cross-functional teams, coordinating with consultants, operators, and contractors, and driving value through risk mitigation, vendor oversight, and lifecycle maintenance strategies. Proven success in delivering integrated security systems across the hospitality, government, and critical infrastructure sectors.

Skills

- Operations Management
- Security Policies & Procedures
- Crisis and Disaster Management
- Threat & Risk Assessment
- Budget oversight
- Operational risk management
- Security Projects & Implementation
- Security Compliance & Governance
- Network
- Command Control Center
- Audit coordination
- Asset Protection

Certifications

- Project Management & Planning, **PMP**, PMI
- Certified Protection Professional, **CPP**, ASIS
- Physical Security Information Management System, **PSIM**, CNL/Vid-sys/Control Pro/Prism.
- SIRA Certified Engineer.
- Security Screening System – Nuctech.
- Lenel/Hirsch/Honeywell/Salto/RBH/Si-Pass/Bosh - Access Control Trainings.
- Bosch/Genetec/Milestone/Control Pro/Cloud IVS, SMS Solutions.
- Physical Security Professional, **PSP**, ASIS.
- Cisco Certified Network Administration, **CCNA**, Cisco.
- Milestone Technical Configuration, Milestone.
- Control Pro, Siemens.
- Explosive Trace Detector, Siemens.
- Dell/Resilient/HP/Pelco/Genetec/Milestone.
- Seagate/Veracity/Promise, Storage Solutions.

Experience

Senior Manager - Security Design & Operations

October 2023 to Present

RED SEA GLOBAL - Riyadh

- Successfully led and developed a high-performing team of professionals at Amaala, fostering a culture of excellence and accountability.
- Visionary Senior Manager at Red Sea Global, driving ICT and Security innovations in ultra-luxury developments.
- Established clear performance metrics and KPIs to drive team productivity and align with organizational goals.
- Proven ability to lead complex, multi-stakeholder projects from concept through to operational readiness.
- Expert in Smart City technologies, integrated security, and ICT systems tailored for high-end hospitality and wellness environments.

- Delivered future-ready, sustainable ICT infrastructure for elite assets such as Rosewood, Four Seasons, Marina and Six Senses
- Effectively engaged with key stakeholders including operators, consultants, and contractors across all project phases.
- Built and nurtured strategic partnerships with vendors and suppliers, securing favorable terms and ensuring seamless project delivery.
- Developed and managed budgets, ensuring financial control and timely delivery of initiatives.
- Spearheaded the strategic direction and oversight of the security delivery team, ensuring alignment with Red Sea Global overarching security objectives.
- Championed compliance with internal security policies, procedures, and industry regulations, ensuring rigorous implementation of security controls.
- Partnered with internal incident response teams and external stakeholders to identify, anticipate, and mitigate emerging threats proactively.
- Designed and executed comprehensive security delivery plans, managing project timelines, resource allocation, and risk mitigation strategies.
- Managed security budgets, ensuring cost-effective deployment of solutions without compromising quality or effectiveness.
- Conducted detailed security audits and risk assessments; identified critical gaps and implemented corrective actions to strengthen the security posture.

Design & Operations Manager - Security

April 2022 to October 2023

Museum of the Future - Dubai

- Manage and oversee new projects, installation, maintenance, and upgrade of security systems, such as Access control, CCTV, and alarm systems.
- Ensure that security policies and procedures are followed and adhered to by all staff and visitors.
- Ensure that security systems are functioning properly and that any issues are resolved in a timely manner.
- Conduct regular risk assessments of the museum's premises and identify potential security threats.
- Conduct trainings for strategic steering committee for promoting risk culture within the organization internally and site wide.
- Develop and implement security measures to mitigate identified risks.
- Hire, train, and supervise security staff, including security guards and technicians.
- Develop and implement staff schedules to ensure that all areas of the museum are properly staffed.
- Collaborate with other museum departments, such as operations, facilities, and IT, to ensure that security systems and procedures are integrated and aligned with the museum's overall objectives.
- Developed departmental objectives, budgets, policies, procedures, and strategies.

Manager Security Systems

June 2019 to April 2022

Expo 2020 - Expo city, UAE

- To build and deliver security systems projects in Expo 2020, Including CCTV, ACS, ANPR, UVSS, ESTS, Command and control, video Analytics, RSA, VSA, IACS, Accreditation etc.
- Manage and oversee the security design and integrations with different stakeholders, international participates for Expo2020.
- Verify integrations of several systems and sub systems to Expo Command Center for incident response and efficient operation.
- Coordination with government entities such as SIRA, Dubai Police, State Security for security design approvals.
- Select, implement, and manage security countermeasures to reduce the risk of loss of information and data.
- Design policies, training, procedures, and methods for the protection of employees, including executive and VVIP protection.
- Executed project schedule and milestones within the allocated budget and specified timeline.

Senior Project Lead - Security Systems

May 2017 to June 2019

Abu Dhabi Islamic Bank - UAE

- Managed technical activities, tendering/quotation evaluation and dealt with clients as well as consultants.

- Successfully led a Project Team for design, installation, commissioning, testing and maintenance of CCTV (IP & Analog), Access - Control System (Wired/ Wireless), Fire Alarm Systems, PAS.
- Prepared required documents such as AutoCAD designs, material lists, data sheets for clients, consultants and ministry.
- Coordinating efforts to restore critical systems and providing business continuity during crisis.

Project Manager - ELV, ICT & Security Systems

November 2015 to May 2017

Qatar Foundation - Doha, Qatar

- Managed ICT, ELV and Security Systems Projects within Qatar Foundation premises.
- Identified potential project risks and developed strategies to minimize impact and control deviations from planned milestones.
- Designed and implemented ELV Systems, ICT Infrastructure, Data Center Design and Security Systems.

ELV Security Systems Engineer

August 2012 to November 2015

Zener Electronics & Electricals - Abu Dhabi, UAE

- Designed and implemented data networks, CCTV and access control design schematics.
- Investigated technically sound solutions for small business technologies.
- Successfully led a Project Team for design, installation, commissioning, testing and maintenance of CCTV (IP & Analog), Access - Control System (Wired/Wireless), Fire Alarm Systems, PAS.
- Provided outstanding customer service and a positive support experience.

Computer Skills
