Surveillance & Safe City Expert | CCTV / VMS / ICCC | e-Governance & Smart City PMO | 25 Years

PROFESSIONAL SUMMARY

Senior Surveillance, e-Governance, and Smart City professional with 25+ years of experience, including 14+ years advising State Governments, Central Government (MeitY/NeGD), and PSUs. Extensive hands-on expertise in the design, implementation, commissioning, and monitoring of large-scale CCTV & surveillance systems, Video Management Systems (VMS), Video Analytics platforms, and Integrated Command & Control Centre (ICCC) projects. Proven track record in DPR, RFP, BOQ, and tender document preparation for Safe City and Smart City surveillance programmes; site survey, FAT/UAT, O&M management; and SLA governance across complex multi-vendor deployments. PMP®-certified (2023). Conversant with CCTV networking & storage architectures, command centre operations, Digital India frameworks, and cybersecurity compliance for Government digital infrastructure.

KEY ACHIEVEMENTS

CCTV & Surveillance — Smart City / Safe City

Led RFP preparation, technical specification drafting, site surveys, and vendor evaluation for large-scale CCTV surveillance deployments — including explosion-proof cameras, NVR/VMS systems, and video analytics — across Smart City programmes at GNFC.

ICCC / Command Centre Projects

Governed Smritivan and Smart City ICCC platforms integrating multi-feed CCTV, video analytics, and command centre operations — coordinating across OEMs, SIs, and Government stakeholders.

National Biometric Program — NAFIS

PMO member for India's national law-enforcement biometric & surveillance identity platform — pan-India deployment, multi-agency integration, SLA compliance.

DPR / RFP / BOQ Documentation

Prepared and reviewed DPRs, RFPs, BOQs, and technical tender documents for surveillance and ICT projects — contributing to policy reforms including ESD Rules notification in Gujarat.

CORE COMPETENCIES

✓ CCTV & Surveillance System Design	✓ VMS, Video Analytics & ICCC Operations	✓ Safe City / Smart City Programmes
✓ Site Survey, Testing & Commissioning	✓ DPR, RFP, BOQ & Tender Documentation	✓ Large-Scale Surveillance Project PMO
✓ CCTV Networking, Storage & Architecture	✓ Command Centre Setup & Monitoring	✓ Vendor Lifecycle & SLA Governance
✓ e-Governance Strategy & Reforms	✓ FAT / UAT & O&M Management	✓ Stakeholder & Change Management

PROFESSIONAL EXPERIENCE

Manager – e-Governance & Smart City Surveillance

nCode Solutions, a Division of GNFC Ltd. (Government of Gujarat Company) Feb 2024 – Present

- Spearhead RFP preparation, DPR drafting, BOQ compilation, and technical specification development for large-scale CCTV & surveillance system procurements — covering Fixed/PTZ/Explosion-proof cameras, NVR/DVR storage architectures, VMS platforms, and video analytics modules.
- Design and oversee implementation of CCTV surveillance systems for Smart City and industrial campus deployments — including network topology, camera placement surveys, cabling, power, and storage dimensioning.
- Lead site surveys, FAT/UAT, testing, commissioning, and project monitoring for surveillance and ICT infrastructure under Smart City and Smritivan programmes.
- Govern ICCC / Command Centre integration projects: coordinating multi-feed CCTV inputs, VMS dashboards, video analytics alerts, and incident response workflows across Government stakeholders and system integrators.
- Manage end-to-end vendor lifecycle: RFP execution support, OEM/SI onboarding, SLA monitoring, AMC management, and performance audits for CCTV, networking, and storage vendors.
- Oversee Data Centre setup, digital infrastructure deployment, and cybersecurity compliance for surveillance and e-Governance platforms.
- Advise Government clients on IT strategy, surveillance platform modernisation, and digital service delivery design; ensure structured FAT/UAT governance, O&M service continuity, and MIS reporting to senior decision-makers.

Head – Operations / Program Management

Smart Chip Pvt. Ltd. (IDEMIA Group)

Aug 2015 – Nov 2023

8+ years in PMO leadership for mission-critical national and state digital identity, transport, surveillance, and citizen service programmes.

- **PMO member for India's national law-enforcement biometric identity and surveillance platform — overseeing pan-India deployment, multi-agency integration (Police, CBI, NIA), SLA compliance, and security governance across distributed data centres.** NAFIS — National Automated Fingerprint Identification System:
- **Supported commissioning, testing, and project monitoring of biometric surveillance and digital compliance platforms with stringent performance, security, and uptime mandates; coordinated with command centre operations teams for multi-agency video and identity data workflows.** Safe City / Surveillance Integration:
- **Managed delivery of DL, RC, and ADTS platforms across multiple states — coordinating between RTOs, NIC, and technology vendors; ensured FAT/UAT governance, site readiness, and O&M continuity.** Transport Mission Mode Projects:
- **Programme management for UIDAI's nationwide citizen-facing Aadhaar enrolment and update service centres — overseeing infrastructure rollout, biometric device commissioning, and SLA governance.** Aadhaar Seva Kendras (ASK):
- Prepared and reviewed technical documents, status reports, and project deliverables for Government stakeholders; supported troubleshooting and issue resolution during execution phases across multi-party delivery environments.

Area Manager – e-Governance Programs

CMS Computers Ltd.

May 2005 – Feb 2011

- Managed state-wide rollout, commissioning, and performance monitoring of CSC (Common Service Centres), eMitra, and LokMitra programmes across Gujarat, Rajasthan, and Madhya Pradesh — overseeing 1,000+ citizen service touchpoints including surveillance-monitored kiosk infrastructure.

- Supported site survey, testing, and commissioning of ICT and digital infrastructure deployments; coordinated with system integrators, OEMs, and Government stakeholders for end-to-end project delivery.
- Led Government business development, bid management, RFP/tender documentation, and contract negotiation for e-Governance programme expansions.
- Managed vendor coordination, citizen-facing service delivery operations, and Government stakeholder engagement across multiple states.

Consultant – State e-Mission Team (SeMT)

National e-Governance Division (NeGD) – NISG | Government of Gujarat Aug 2011 – Jul 2015

- Embedded IT advisory consultant within Government of Gujarat under MeitY's SeMT framework; reviewed architecture, implementation progress, and performance of 10+ State MMPs including CCTNS (Crime & Criminal Tracking Network System — a national law-enforcement surveillance and data-sharing platform).
- Served on Government IT tendering and bid evaluation committees — assessing technical and financial proposals for major State IT procurements including surveillance, ICT, and SaaS/platform contracts.
- Key contributor to notification of Electronic Service Delivery (ESD) Rules in Gujarat; prepared MIS and progress reports for NeGD/MeitY on Gujarat's e-Governance performance.
- Led preparation of the Compendium of e-Governance Best Practices; provided advisory support on integrated government systems: CCTNS, PDS, ICDS, and education platforms.

Executive Assistant – e-Governance

Gujarat Informatics Limited (GIL) — IT Nodal Agency, Government of Gujarat Jan 2000 – May 2005

- Worked on enterprise Government IT systems including workflow management, document management, and data warehouse platforms for state-level information dissemination.
- Supported pre-feasibility studies, bid evaluations, ISO 9001:2000 implementation, and early data architecture / system design reviews for Government IT projects.
