EXECUTIVE SUMMARY

Strategic and technically proficient **Project Manager** with **16 years of experience** in large-scale Surveillance (VSS), Optical Fiber Networking (OFC), and Security Infrastructure. A proven leader in executing mission-critical government projects for **Indian Railways** and the **Government of Rajasthan**. Expert in navigating complex stakeholder environments, managing multi-disciplinary teams, and maintaining 99.9% SLA uptime.

CORE COMPETENCIES

- **Project Lifecycle:** Planning & Commissioning, Requirement Gathering, Risk Mitigation, SLA Management.
 - **Technical Expertise:** IP CCTV (Hikvision, CP Plus), OFC/UTP Networking, Data Center Management.
 - **Network Engineering:** Cisco/Allied Switch Configuration, RF Devices (Cambium, Mikrotik), Fault Diagnosis.
 - **Leadership:** Team Management (Field & Technical), Client Relationship Management, Asset Inventory.
-

PROFESSIONAL EXPERIENCE

Project Manager | Transline Technologies Ltd. | Nov 2025 – Present

- **Project:** Video Surveillance System (VSS) for Indian Railways (NWR).
- Ensured maximum uptime of security systems by maintaining high service standards and strict adherence to SLA commitments.
- Directing the deployment of a centralized surveillance network across multiple railway stations to enhance public safety.
- Collaborating with the Police Department to conduct site surveys and design high-level network topology maps.
- Managed customer complaint resolution by meeting defined response and resolution timelines; performed root cause analysis and implemented corrective & preventive actions.
- Handled Asset management including timely procurement from OEMs, maintaining optimal inventory levels, and tracking consumption with failure analysis.
- Leading daily stand-up meetings to align onsite execution with corporate project milestones.
- Conducted site audits, identified gaps, and implemented preventive measures to reduce downtime and rework.
- Monitored contract profitability (P&L), optimized costs, and improved margins through effective resource and service management.

Team Leader | Technosys Integrated Solutions Pvt. Ltd. | April 2024 – Oct 2025

- **Project:** Ladli Suraksha Yojana (Govt. of Rajasthan).
- Managed end-to-end installation of security cameras for the ACCC project, ensuring 100% compliance with government safety standards.
- Managed team performance through defined KPIs/metrics, ensuring operational efficiency and service quality.
- Coordinated with OEMs and B2B vendors for timely support in maintenance activities and compliance requirements.
- Ensured timely invoicing and collections, contributing to reduced DSO and improved cash flow.
- Collaborated with internal departments (HR, SCM, Finance) and external stakeholders for smooth project and service execution.
- Led team management initiatives including scheduling, attendance tracking, and skill development in coordination with HR.
- Built and maintained strong client relationships by suggesting system improvements, upgrades, and innovative solutions.
- Oversaw preventive and breakdown maintenance activities to ensure uninterrupted system performance and service reliability.
- Provided immediate support for critical issues, ensuring quick resolution and minimal downtime at client sites.
- Supervised field engineers and handled on-site troubleshooting to meet aggressive project deadlines.

Senior Engineer | Aurionpro Solution Limited | July 2017 – Sept 2023

- **Project:** Abhay Command Center (ACCC) – City Surveillance.
- Engineered the Data Center backbone for Bikaner, Churu, and Barmer police control rooms.
- **Achievement:** Recognized for resolving critical statewide network issues, ensuring seamless video feeds for thousands of city cameras.
- Optimized RF and Fiber networks to support real-time incident reporting for police officials.

Project Manager | Tech Giants (Railway Contractor) | July 2014 – June 2017

- Executed signal and telecom projects for Indian Railways across West Bengal, Odisha, and Visakhapatnam.
- Managed long-distance fiber routing and switch configurations for high-reliability railway communications.

KEY PROJECTS & ACHIEVEMENTS

- **Virtual Video Conference:** Successfully managed the network infrastructure for a high-profile virtual conference for the Chief Minister of Rajasthan.
 - **Certificate of Excellence (2020):** Awarded by the **Superintendent of Police** for exceptional contribution to city surveillance.
 - **Certificate of Excellence (2021):** Awarded by **DOIT&C, Govt. of Rajasthan** for technical leadership in the Abhay Command Center project.
-

EDUCATION

- **Master of Computer Applications (MCA)** | Jaipur National University (2022)
 - **Bachelor of Commerce (B.Com)** | Jodhpur National University (2014)
-

TECHNICAL SKILLS

- **Networking:** Switch Stacking, VLAN Configuration.
 - **Security:** VMS Software, RF Link Planning.
 - **Operations:** MS Office (Expert), Asset Tracking, SLA Reporting.
-

PERSONAL DETAILS

- **Location:** Bikaner, Rajasthan
- **Languages:** English, Hindi
