OBJECTIVE:

To associate with an organization that promises a creative career in progressive environment so to enhance my knowledge and Challenging Position in the areas where I can effectively contribute my skills & work for the mutual benefit of the organization & myself.

PROFESSIONAL SUMMARY:

- Currently associated with **L&T Technology Services.**, as **Senior Engineer** with Bid & Engineering Technical Team for Non-IT Infra Development **(March-2023 to Present)**.
- Earlier associated with **L&T Smart World.**, as **Asst Manager – Data Center** with Bid & Engineering Technical Team for Non-IT Infra Development **(March-2022 to March-2023)**.
- Earlier associated with **Sharp Management Services.**, as **Operation Manager for Risk Control Unit** **(Jan-2021 to March-2022)**.
- Earlier associated with **Netcon Technologies India Pvt. Ltd.**, as **Senior Engineer** for IT Infra Development **(July-2017 to Jan-2021)**.
- Earlier associated with **Dasa Infra System Private Limited.**, as Project In charge for Transmission line and DP yard Project Execution in 33kV & 66kV Level **(Aug-2014 to June-2017)**.

MY ROLES & RESPONSIBILITIES :

- 11 Years of Industrial experience with expertise in Solutioning and Implementation of Smart & Safe City Solutions, Physical Security Systems like Video Surveillance, PIDS, Bollards, Boom Barrier's, UVSS, Access Control System, BMS, PAS and Traffic Solutions like ITMS & ATCS and its Integration.
- Non-IT Infra components like Videowall, VMD, UPS, DG Set, Racks & Junction Box, Passive Cabling, Workstations, LED display, Printers, Civil & Interiors, Control Desks, Poles, Bandwidth and Safety & Security systems like VESDA, FAS, Fire suppression system, Access control system, Rodent Repellent system throughout the project.

- Responsibilities to make RFP compliance evaluations for Non-IT Infra components, and Project Engineering perspective - Junction Planning, UPS Sizing, DG Set Sizing, Bandwidth Calculation, Rack Population, Junction Box sizing.
- Collaborate with the architect and construction crew to ensure the project's practicality.
- Meet with PMC, architect, client and construction crew on-site.
- Perform follow up with vendors, suppliers and subcontractors.
- Inspire and manage my team by demonstrating dedication to work ethic, enforcing compliance of safety and quality standards, making correct and informed decisions and appropriately responding to the risks and changes of projects.
- I set ethical standards to my team to follow and gain the trust of clients through transparency and nurturing relationships.
- Good in understand the risk and prepared to handle any unexpected changes in project plans, timeline s and other unforeseen changes in their industry.
- Continues monitoring of my team to maintained safe workplace for myself and surrounding peoples.
- Completes assignments on or ahead of schedule, demonstrates project planning and time management capabilities.
- Prioritizes tasks and implements efficient work procedures, routines and/or systems to maximize productivity.
- Regularly completes all duties and goals with minimal supervision or assistance. Is punctual and meets work attendance and deadline requirements. Adapts well to changes in work assignments or goals.
- Undertakes a complex task by breaking it down into manageable parts in a systematic and detailed manner utilizing critical thinking and analysis. Thinks of several possible explanations or alternatives for a situation, anticipates potential obstacles, and develops contingency plans to overcome them. Identifies the information needed to solve problems effectively and communicate outcomes.
- Generates new and progressive ideas, appropriately challenges the status quo. Takes responsibility and informed risks.
- Meets team deadlines and responsibilities, keeps stakeholders informed appropriately. Listens to and values others opinions, promoting a colleague team atmosphere. Supports, assists and empowers team leaders while also leveraging own expertise to accomplish group goals. Contributes to effective team processes and deliverable (e.g., team communication, team meetings, team exercises, etc.)
- Resolve customer questions and/or complaints efficiently, effectively and professionally. Demonstrates a sense of urgency and responsibility to consistently provide service at all levels. Is committed to increasing customer satisfaction and confidence.

MAJOR PROJECT EXPERIENCE:

1. **L&T Jhansi Smart City Project - Data Center & CCC - Jhansi UP - Buildup of Data Center and Command Control Center**
Roles & Responsibility:
Construction Manager –Vendor Management – TL Co-ordination - Design Monitoring and Implementation of Electrical, HVAC, Civil, Safety and Security Equipment's & PA Systems – Quality Management – Buildup of Data Center and Command Control Center.

2. **NPCR Data Center - Hyderabad Airport - Buildup of Primary Data Center**
Roles & Responsibility:
Project Manager – Vendor Management – TL Co-ordination - Design Monitoring and Implementation of Electrical, HVAC, Civil, & Safety and Security Equipment's – Quality Management – Buildup of Primary Data Center.
3. **E-Shiksha Tamilnadu** – Smart Class Room for 6000 High and Higher Secondary Schools all over Tamilnadu.
Roles & Responsibility:
Project Manager East Zone – Vendor Management – TL Co-ordination – Design Monitoring and Implementation of Electrical, and IT Equipment's – Quality Management – Buildup of Smart Class Room For Tamilnadu Schools.
4. **IITM Chennai** – Chiller Package for HPC Data Center IIT Madras.
Roles & Responsibility:
Project Manager – Vendor Management – Design Monitoring and Implementation of Electrical, HVAC Equipment's – Quality Management – Buildup of Cooling Chiller Towers for HPC Data Center IIT Madras.
5. **Airport Authority of India Chennai** – PA Systems for Chennai Airport.
Project Manager – Vendor Management – Design Monitoring and Implementation of Electrical & Safety and Security Equipment's – Quality Management – Buildup of Public Announcement System and Wireless Conference System.
6. **L&T Construction HQ Chennai** - Technology Excellence Center for L&T.
Roles & Responsibility:
Project In charge – Vendor Management – Design Monitoring and Implementation of Electrical, HVAC, Civil, & Safety and Security Equipment's – Quality Management – Buildup of Technology Excellence Center.
7. **SCTIMST Trivandrum** – Mini Data Center of Sree Chitra Tirunal Hospital.
Roles & Responsibility:
Project In-Charge – Vendor Management – Design Monitoring and Implementation of Electrical, HVAC, Civil, & Safety and Security Equipment's – Quality Management – Buildup of Mini Data Center.
8. **L&T RRVPNL Rajasthan**– Rajasthan Substation Survey (550 Locations) Design & Solution.
Roles & Responsibility:
Project Co-Ordinator – Field Engineers co-ordination- CAD Engineers co-ordination – Design & Solution document preparation.
9. **Siemens Gamesa Renewable Power Madhya Pradesh** – 50 km Multi Circuit OH Transmission line and 100 DP yard for 200 MW Project Execution in 66 kV & 33kV Level.
Roles & Responsibility:
Project In charge – Vendor Management – Design Monitoring – Quality Management – Implementation of OH Transmission Line and DP Yards.

AWARDS & REWARDS:
